SUNDAY, APRIL 3
Arrival and Registration

MONDAY, APRIL 4
Welcome and Keynote Address
V. Michael Holers, University of Colorado Denver, USA
Complement Therapeutics: A Long and Winded Road

Food for Thought - Complement and Normal Cell Physiology
Claudia Kemper, NHLBI, National Institutes of Health, USA
An Unexpected Force from Within: Complement as Key Controller of Basic Cellular Pathways
Christoph Hess, University Hospital Basel/University of Cambridge, Switzerland
Innate Immune Deficiencies and Metabolic Syndromes
Jose A. Villadangos, University of Melbourne, Australia
Finally Filling the Gap: Non-canonical C3 Functions in B Cell Biology

Short Talk(s) Chosen from Abstracts
Successful at the Interface of Academia and Industry

Workshop 1
Short Talks Chosen from Abstracts
Complementing PRR Activities during Host Protection
Thirumala-Devi Kanneganti, St. Jude Children's Research Hospital, USA
Targeting PANoptosis for the Treatment of Inflammatory and Infectious Diseases
Jose Ordovas-Montanes, Boston Children's Hospital and Harvard Medical School, USA
Don’t Forget! – New Concepts in Inflammatory Memory
Sanjay Ram, University of Massachusetts, USA
An Epic Evolutionary Fight: Complement and Bacteria

Short Talk(s) Chosen from Abstracts
Poster Session 1

TUESDAY, APRIL 5
Pores and Pyroptosis – Beyond Inflammasomes
Judy Lieberman, Harvard University, USA
The Killer Question: How to Unleash the Anti-Tumor Potential of Pore Formers?
Feng Shao, National Institute of Biological Sciences, China
Gasdermin Pores: Destruction from the Inside for Immune Defenses
Susan Lea, NCI, National Institutes of Health, USA
Poking Holes - Structural Control of Lytic Complement
Thomas J. Schall, ChemoCentryx, Inc., USA
Taming, Not Killing, the Beast: Novel Complement- Targeting Strategies

Short Talk(s) Chosen from Abstracts

Workshop 2
Short Talks Chosen from Abstracts
Mopping up the Mess – with Complements from C3
Christoph J. Binder, Medical University of Vienna, Austria
Keeping the Clearance of Dead Cells Under Control
Kodi S. Ravichandran, University of Virginia, USA
The Art of Eating Well

Speaker to be Announced
Short Talk(s) Chosen from Abstracts
Poster Session 2

WEDNESDAY, APRIL 6
Complement Makes for a Beautiful Mind
Dorothy Schafer, University of Massachusetts Chan Medical School, USA
Complement at the Synapse and Beyond: Implications for Neurological Disease
Speaker to be Announced
Jonathan Kipnis, Washington University School of Medicine, USA
Innate Signals Regulating Cognitive Function and Behavior

Short Talk(s) Chosen from Abstracts
Workshop 3
Short Talks Chosen from Abstracts
The Road Less Traveled - Emerging New Paradigms
Menna Clatworthy, University of Cambridge, UK
Innate Immunity, the Meninges and Anxiety Disorders
Kate A. Fitzgerald, University of Massachusetts Medical School, USA
New Mechanisms of Innate Immune Regulation
Behdad Afzali, NIDDK, National Institutes of Health, USA
Not What We Thought – Unconventional Roles for Complement in Kidney Disease

Speaker to be Announced
Speaker from Industry: Complement and COVID-19
Short Talk(s) Chosen from Abstracts

Meeting Wrap-Up: Outcomes and Future Directions (Organizers)

THURSDAY, APRIL 7
Departure
